Education

•Sahyadri College of Engineering and Management - Mangalore, India *2022-2026*
Bachelor of Engineering - Computer Science and Engineering CGPA: 8.1

•Holy Family Higher Secondary School Rajapuram - Kasaragod, India *2020-22*
Class XII / PU : PCMC - Department of Pre-University Education, Kerala Percentage: 83.86%

•Holy Family Higher Secondary School Rajapuram - Kasaragod, India *2018-2019*
Class X - State Board 9A+, 1A

Projects

•House of Dental – Dental Clinic Website *Ongoing*

Developing a full-stack dental clinic website using React and Django REST Framework to support clinic information and online appointment booking.

- Built REST API endpoints for clinic services, dentists, testimonials, gallery content, appointments, and dentist availability using Django REST Framework.
- Developed a multi-step appointment booking flow with dentist and date selection, available time slots, and validation to prevent booking conflicts and selection of past dates.
- Implemented OTP-based verification and appointment management features, including booking status handling and cancellation.
- Created responsive React components and integrated the frontend with backend APIs using Axios; added Django Admin support for managing clinic data and appointments.

•Developer Portfolio Website

Designed and deployed a responsive portfolio using React and Vite to showcase technical skills, projects, and experience.

- Built reusable React components for the hero, about, skills, projects, experience, education, resume, and contact sections, using Tailwind CSS for responsive styling.
- Added interactive 3D visuals using React Three Fiber and scroll-based animations with GSAP and ScrollTrigger.
- Implemented project filtering and interactive project cards, and deployed the production build on Vercel.
- Live Portfolio | GitHub Repository

Experience

Python Django Full Stack Developer Intern | Luminar Technolab *Jun 2026 – Present*
Kerala, India

- Develop web applications using Python, Django, HTML, CSS, JavaScript, and MySQL.
- Build REST APIs with Django REST Framework and implement CRUD operations with database integration.
- Work with Django models, views, URL routing, templates, ORM, and Django Admin.
- Write SQL queries and integrate frontend components with backend services; use Git and GitHub for version control.

SOC Intern | Terraeagle *Feb 2026 – May 2026*
Bengaluru, India

- Monitored and investigated security alerts using Wazuh and Microsoft Sentinel, analyzing Sysmon and Windows Event Logs.
- Performed alert triage, log correlation, and incident reporting in a security operations environment.

Technical Skills

Languages: Python, SQL, JavaScript, HTML, CSS

Backend Frameworks: Django, Django REST Framework, FastAPI

Databases: MySQL, PostgreSQL

Backend Development: REST APIs, CRUD Operations, Django ORM, MVT Architecture, URL Routing, Views, Models, Django Admin, Authentication, Form Validation

Frontend Development: ReactJS, JSX, Components, Props, State, Hooks, Axios, Bootstrap, Responsive Design

Tools: Git, GitHub, VS Code, Postman, ChatGPT, GitHub Copilot

Certificates

- **Fundamentals of Data Networking**
- **The Complete Python Bootcamp From Zero to Hero in Python**
- **Python Programming**

Achievements / Positions of Responsibility

- **Class Representative** *2022-2026*
- **Member of National Service Scheme (NSS), SCEM** *2024*
- **Bharat Scouts and Guides** *2018-19*
